

BRIEF AUS ISRAEL FÜR HERRN BECKER

Hello, I am Shlomo Regev, an Israeli Jew, I was born in Tel Aviv in 1947. I was a soldier in the IDF. I participated in wars and I even wounded. After I went on and also taught serving my country in reserve until the age 51...Next stage of my life, in the early 2000s wanting to serve my country and my neighbors as a peace activist, I

found a Palestinian partner, Mhammed from near Qalqilia and started organizing young groups and educating each other for mutual recognition and returning to rediscover the humanity of each other and the humanity, with which we came so often to the city of Frankfurt, to Club Voltaire opened us doors to host our activities for Peace and brotherhood. **We were surprised to hear there were causes wanting to close the place (Club Voltaire) on the grounds of anti-Semitic activity**, I heard that a place in **Frankfurt** who gives a stage to those who work for a life of freedom, equality, brotherhood and dignity between Israelis and Palestinians (people experiencing bitter and ongoing conflict) is labeled as anti-Semitic!? I heard and did not believe it! ...
